PROJECTS / OPEN-SOURCE

MYBILLBOOK | LINK **Html, Css, Javascript, React.js, Styled-component, react-table, Figma, Netlify**
In this project, I've created a CRM Based Application in which users can interact with Landing Page with amazing UI. Users can Enter their phone number and log in and it will take them to the items page where they can Add/Create items using the form and show them in form of a table.

SHORTLY | LINK **Html, Css, Javascript, React.js, Figma, Netlify**
React Application to short the link. Users can add the Original link to get the shortened link via this application with an amazing UI/UX.

MYSITE | LINK **Html, Css, Javascript, React.js, Styled-component, Figma, Netlify**
CRM Application using React.js and styled-components. Used to assign different roles/departments in certain projects, check their budget and permissions, and all their access controls.

REACT-TODO | LINK **Html, Css, Javascript, React.js, Styled-component, Figma, Netlify**
React Application to add to-do list. In this Application, users can add their todo and tag them as complete/incomplete and filter them out on the basis of their requirements. It uses local storage to access previously filled data.

HONORS & AWARDS

- Got 1st position in debate and Awarded with certificate on clearing React.js Test on HackerRank
